# ABOUT

Hello.

I'm Dimas, a professional photographer from Eastern Europe.

My experience of shooting is more than 10 years.

I started shooting in 2007. Did various surveys for magazines and agencies. And I was engaged in shooting events and interiors, live reportage shooting and shooting products for advertising. But my true passion all time is work with people. I put my soul into every shot I make. Whether it's shooting a couple in love or an individual shoot for the models.

In late 2015, I moved to live in Thailand on the island of Koh Samui. And now I'm doing the same, but more often in Thailand. I am available and open to any ideas and suggestions. If you have any thoughts or want to discuss something, then feel free and ask any questions.
